Session 2022-23

7.1.3 Waste Management

Response:-

Waste management includes the processes and actions required to manage waste. Institute makes MOU with Mayank Infracon Private limited for the collection of E-waste at the end of every semester and solid waste is collected every week.

1. **Solid Waste Management:** Every-day academic buildings and other surrounding areas on the campus are cleaned by Sweepers and they separate out waste and dispose accordingly on the basis of dryness and moisture present in it, and then this waste is deposited in Pits.
2. **Liquid Waste Management:** -Liquid waste from the points of generation like the canteen, toilet, water coolers, RO plant, etc. is let out as effluent into a proper drainage facility to avoid stagnation.
3. **E-Waste Management:** As per MOU E-waste collects and then system analysts identify useful E-waste for hardware lab and the remaining E-waste send to Mayank Infracon Pvt Ltd for recycling.
4. **Biomedical Waste Management:** In the biomedical waste management system, the sweeper collects the sanitary napkin from the ladies' washroom & girls' common room and this waste is deposited into the waste collection vehicle of Nagar Parishad.
5. **Hazardous Chemical and Radioactive Waste Management:** In our academic curriculum; no Hazardous chemicals are required and no Radioactive Waste is generated.

7.1.3 Waste Management
